

In collaboration with the international textile designer **Lorena Canals**, LIFETIME proudly presents the washable collection ESSENCE.

Lorena Canals, creator of the washable rug concept, creates safe and functional home decor with environmentally friendly, handmade rugs and accessories. These are made of natural cotton and non-toxic dyes to ensure a durable product that lasts after washing and makes every-day life easier. Her business idea is based on creating a perfect rug for a child-friendly home.

Together with a team of nearly 200 artisans, Lorena Canals works tirelessly to get every detail right for her unique and sustainable pieces of art. The production takes place in her factories in India and is supported from offices and warehouses around the world.

Special focus on quality throughout the entire production process, from the selection of the best raw materials to the promotion of socially responsible labour practices, make these items outstanding products and fantastic additions to any children's room.
