

The shared ambition of high-quality products that impact people's lives, is what brought LIFETIME and Cotton Ball Lights to cooperate a decade ago. Since then, Cotton Ball Lights has designed various string light combinations that perfectly match the LIFETIME themes. These exclusively designed variations are only available at LIFETIME.

Our light garlands can be used to create a cosy mood in the children's room or function as a useful night light. Due to the Twister ® technology all Cotton Ball Lights are easily assembled. The beautiful cotton balls are handmade and unique, and small irregularities may occur. By assembling your own Cotton Ball Light string, you can customize the order of the cotton balls.

The combination of LIFETIME beds and Cotton Ball Lights mood lighting creates a unique ambience that makes dreams come true!
